EGAN AERO

The world's thinnest, lightest, toughest and clearest glass markerboard.

Best in Class. Best for Business.

CORNING
Gorilla® Glass

The innovative EganAero has to be seen to be believed. Featuring Corning Gorilla Glass as a keystone component, it's the thinnest, lightest, toughest, and clearest glass markerboard. With a remarkable standoff profile of sub 2mm, it's up to **88% thinner** than standard glass. Egan was the first to bring ultra-thin glass to the market, and only Egan offers Low-profile, Hover, and Boxcore formats to suit any design intent.

Thinnest

- » World's most legible glass markerboard.
- » Extremely low profile, elegant installation.

Toughest

- » EganAero is more resistant to scratches, which trap dry-erase ink. Boards look beautiful longer.

Clearest

- » Design backer chosen shows true.

Lightest

- » Easy to move.
- » Place on your desk and brainstorm.
- » Re-orient portrait or landscape.

	Standard	EganAero
Thickness [mm]	6 - 8	1
Weight [lb/sf]	2.9 - 3.9	0.5

Unprecedented performance and functionality.

Every EganAero board features a durable, easy-to-clean surface, with neomagnet compatibility and high optical clarity and legibility. Unlike other glass markerboards that suffer from poor legibility due to depth of field issues, we guarantee that on an EganAero ink appears crisp, markings are shadowless, and the surface comes 100% clean.

Unparalleled writing performance

Writing on EganAero is smooth and easy, with crisp, clear, legible results.

Shadowless marking

Superior optics and legibility prevent shadows that impact clarity.

Clean edges

True, symmetrical design with rectilinear shape, a 1/8" radius corner and micro-bullnose edges.

Mobile and totally versatile

Table-top use for team building

Easy to relocate

Create unique combinations

Move it around. Use it on the wall. Put it on a table. Merge several boards together. Engage your team with a versatile tool that works with how they think and interact.

Unlimited design palette.

EganAero Backer Selection

Available in a wide range of colors, post-industrial graphic options and exciting EganINK™ custom options, EganAero boards offer tremendous design possibilities that enhance your space – and redefine how you collaborate.

EganINK

Match decor, incorporate logos or add other custom features with EganINK, which is protected sub-glass and ensures dry erase markings stay clear and shadow-free.

Installation Options

- » EganAero Flush mount is a low-profile installation that is sub-2mm proud when installed.
- » EganAero Hover is a double-cleated Z-bracket installation, and the board hovers 7mm off the wall.
- » EganAero Boxcore features an anodized aluminum frame that has an ultra-thin bezel viewed from the front, 19mm (3/4") deep at the sides, sitting flush against the wall.
- » All three models are magnet-compatible (EganAero Hover, and EganAero Boxcore feature increased magnet-holding capacity).
- » EganAero Presentation Cabinets also available.

Egan Visual Inc.

Backed by more than 45 years of ingenuity, Egan is the trusted leader in visual communication systems for people who want empowering and engaging experiences and environments. We offer a no-hassle experience with a wide breadth of standard, custom and bespoke visual communication systems, including professional grade markerboards, tackboards, mobiles, lecterns, centers, wall coverings, cabinets and glass markerboards. Egan Visual designs, manufactures and distributes its systems from facilities in the United States and Canada. For more information, visit www.egan.com. Environmentally responsible through design, quality, value, and timeliness. Egan has been certified to have established and maintained a Quality Management System and an Environmental Management System, which are registered to the ISO9001:2008 and ISO14001:2004 standards.
